

# Thank You

## **To My AWOG Community,**

After thirty years practicing medicine, the last twenty-one here in Atlanta, I have decided to retire. My last day will be August 31st, 2024.

I have so thoroughly enjoyed my job. It has been my great privilege to celebrate your accomplishments and successes, to share in your sorrows, and to help grow your families.

While giving that up is bittersweet, I look forward to having more time with my own family and to exploring new opportunities and interests in Atlanta.

I am leaving you in the care of a fine group of women: our AWOG staff and physicians are amazing and will continue to care for you in all the ways that I would.

I always enjoy running into you in and around Atlanta on hiking trails, in restaurants and stores, at the farmer's market and on my travels. It is a pleasure hearing about your achievements and watching your children grow up, so please keep in touch and say hello if you see me!

**With the greatest regard,**

Gabriela Siegel, M.D.
